# CURRICULUM VITAE

**Alan Hastings**
Distinguished Professor
Department of Environmental Science & Policy,
University of California, One Shields Avenue, Davis, California 95616

530-752-8116 (voice) 530-752-3350 (FAX)
amhastings@ucdavis.edu

## Education:

Ph. D. in Applied Mathematics with minors in Population Ecology and Population Genetics, Cornell University, 1977
M. S. in Applied Mathematics, Cornell University, 1975
B. S. in Mathematics, Cornell University, 1973

## Employment:

**2003- -- Distinguished Professor, Department of Environmental Science & Policy**;
1992-1998--Chair, Department of Environmental Science & Policy;
**1989- -- Professor, Department of Environmental Science & Policy**;
1985-1989-- Professor, Department of Environmental Science & Policy and Department of Mathematics;
1983-1985-- Associate Professor, Department of Environmental Science & Policy and Department of Mathematics;
1982-1983--Associate Professor, Department of Mathematics;
1979-1982--Assistant Professor, Department of Mathematics;
**University of California, Davis**

1977-1979--Assistant Professor, Department of Pure and Applied Mathematics;
**Washington State University**

## Honors and awards:

Member, National Academy of Sciences (Elected 2015)
Fellow, American Academy of Arts & Sciences (Elected 2005)
Robert H. MacArthur Award, Ecological Society of America (2006)

Faculty Research Lecturer, University of California, Davis (2006-7)
Fellow, Society for Industrial and Applied Mathematics (Elected 2013)
Fellow, Ecological Society of America (Elected 2012)
Fellow, American Association for the Advancement of Science (Elected 2005)
Honorary Editor, Journal of Mathematical Biology 2011-
NSF Predoctoral Fellowship 1974-1977
Ford Foundation Fellowship for Engineering Research Relevant to Society 1973-1974

**Other experience**:

2011 – Chair, Awards Committee, Ecological Society of America
2009 -2011 Chair, MacArthur Award Committee, Ecological Society of America
2009 (June) Visiting Professor, EPFL, Lausanne, Switzerland
2008- 2011 Member and Chair, NIMBioS (National Institute for Mathematical and Biological Synthesis) Advisory Board
2008- Member, NEON (National Ecological Observatory Network) Science Technology and Education Advisory Committee
2005- 2009 Member, (acting chair 2006-2007), Mercer Award Committee, Ecological Society of America
2004-2008 Member, Science Advisory Board, National Center for Ecological Analysis and Synthesis
2003 – NSF panels
2002-2004 Chair, Graduate Council, University of California, Davis
2002-2004 Council Delegate, AAAS
1998-1999, Vice President; 1999-2001, President, 2001-2002, Past President, Society for Mathematical Biology
2001 NSF Long Term Ecological Research 20 year Review Committee
2000- 2002 NSF Ecology Panel
1997- 2002 Director, Research Training Grant in Nonlinear Dynamics in Biology, University of California, Davis
August 1997; July 1999; April 2002, July 2003, May 2005 —Distinguished Visitor, NERC Centre for Population Biology, Silwood Park, Imperial College
1994-1995, Vice Chair; 1995-1996, Chair; Theoretical Ecology Section, Ecological Society of America
Jan. 1991-June 1993--Chair, California Coordinating Committee for Nonlinear Sciences (a UC wide research group)

Jan. - Mar. 1992, Acting Chair, Division of Environmental Studies, UC Davis

### Editorial work:

2006 – present Theoretical Ecology, founding Editor in Chief
1995-2008 Journal of Mathematical Biology, Co - Editor in Chief
2014 – present Ecological Complexity, Editorial Board
2013 – present Movement Ecology, Editorial Board
2013 – present PeerJ, Board of Editors
2011— present Nature Communications Editorial Advisory Panel
2010 – present Mathematical Population Studies, Associate Editor
2006 – present Journal of Theoretical Biology, Editorial Board
2003- present Theoretical Ecology Series, Academic Press, founding Editor in Chief
2003-present Chaos and Complexity Letters, Editorial Board
1989-2014 Mathematical Biosciences, Editorial Board
1998-2003 Conservation Ecology, Editorial Board
1993-1995; 2008-2011 Journal of Mathematical Biology, Editor
1990-2003 Theoretical Population Biology, Associate Editor
1996-2001 Oecologia, Associate Editor
1995-1997 Evolution, Associate Editor
1989-1992 Ecology and Ecological Monographs, Board of Editors

### Selected Invited presentations (1998-present):

Spatio-Temporal Dynamics in Ecology, Lorentz Center, Lediden, Netherlands (December 2014)
MDPE 2014 Plenary Speaker, Turin, Italy (August 2014)
SIAM Life Sciences Plenary Speaker, Charlotte, North Carolina (August 2014)
SMB-JSMB Annual Meeting, Osaka, Japan (July 2014)
Tokyo Metropolitan University Symposium Speaker (July 2014)
Symposium, American Geophysical Union (December 2013)
Workshop on regime shifts, ICMS, Edinburgh, UK (September 2013)
MPDE 2013 Plenary Speaker, Osnabruck, Germany (August 2013)
Summer school on invasive species, Edmonton, Alberta, Canada (June 2013)
Workshop on Mathematics of Invasive Species and Global Change, BIRS, Banff, Alberta, Canada (May 2013)

Yale University (April 2013)
Population Ecology Society of Japan Plenary Speaker, Tokyo, Japan (October 2012)
Master Class on Early Warning Signs for Tipping Points, KNAW, Amsterdam, Netherlands (October 2012)
MPDE Plenary Speaker, Santa Maria, RS, Brazil (September 2012)
National Marine Fisheries Service, Santa Cruz (July 2012)
BIOCOMP Plenary Speaker, Vietri Sul Mare, Italy (June 2012)
Santa Fe Institute (May 2012)
Workshop on Critical Transitions in Complex Systems, London, UK (March 2012)
University of Michigan (October 2011)
Rollie Lamberson Lectures, Humboldt State University (April 2011)
Colorado College (January 2011)
University of Florida (January 2011)
University of Wyoming (December 2010)
University of Alberta, Distinguished Visitor (October 2010)
Arizona State University (October 2010)
University of Calgary (March 2010)
Tulane University (November, 2009)
Plenary Speaker, Workshop on Control in Chemical and Life Sciences, Bernoulli Institute, EPFL, Lausanne, Switzerland (June, 2009)
Plenary Speaker, Mathematical Models of Collective Dynamics in Biology and Evolution, Leicester, England (May, 2009)
University of Chicago (April, 2009)
Duke University (April, 2009)
McGill University, Montreal, Canada (March, 2009)
University of Colorado, Boulder (September 2008)
University of Guelph (September 2008)
Cornell Probability Summer School (June 2008)
UniNet meeting on Networks, Paris, France (June 2008)
Dynamical Systems in Biology, New York University (April 2008)
Louis Thaler Lecture, Montpellier, France (November 2007)
Robert H. MacArthur opening scientific plenary lecture, Ecological Society of America Annual Meeting, San Jose, CA (August 2007)
Plenary Lecture; Society for Mathematical Biology Annual Meeting, San Jose, CA (July 2007)

Plenary Lecture, The 2nd International Symposium "Dynamical Systems Theory and Its Applications to Biology and Environmental Sciences" Shizuoka University of Hamamatsu, Japan (March 2007)

International Congress on Ecology Modeling, Ube, Japan, Keynote Lecture (August 2006)

Hoksai Lecture, 2nd International Workshop of Application of Chaos Theory and Nonlinear Dynamics on Agricultural and Ecological Systems Tokyo University of Agriculture and Technology College of Agriculture (March 2006)

Unity in Diversity (in honor of Margalef) Barcelona, Spain (Nov. 2005)

Estación Biológica de Doñana, CSIC,Sevilla,Spain (Nov. 2005)

Ecological Society of America, Annual Meeting, (August 2005)

Centre for Mathematical Biology, University of Bath (May 2005)

Ostrom Lectureship, Washington State University, (March 2005)

Keynote Speaker, The 1st International Workshop of Application of Chaos Theory and Nonlinear Dynamics on Agricultural and Ecological Systems Tokyo University of Agriculture and Technology College of Agriculture (Nov. 2004)

Dept. of Biology University of South Florida (October 2004)

Dept. Ecology and Evolutionary Biology Iowa State University (September 2004)

Ecological Society of America, Annual Meeting, (August 2004)

Society for Conservation Biology, Annual Meeting (July 2004)

International Food Web Conference, Giessen, Germany (November 2003)

Dept. Ecology, Evolution, and Marine Biology, UC Santa Barbara (October 2003)

SMB Annual Meeting, Dundee (August 2003)

Biocomplexity Series, Northwestern (May 2003)

Dept. of Ecology and Evolution, Cornell University (February 2003)

Symposium on Ecological Theory and Restoration, Ecology Society of America Annual Meeting, Tucson, Arizona (August 2002)

Symposium on Structured Population and Community Modeling and Ecotoxicology, Society for Mathematical Biology Annual Meeting Knoxville (July 2002)

Special Session on Mathematical Biology, American Mathematical Society Regional Meeting, Portland, Oregon (June 2002)

Conference on Distribution, Diversity, and Evolutionary Dynamics, University of Virginia, Charlottesville, VA (June 2002)

Oxford University, Centre for Mathematical Biology (April 2002)

Imperial College, Centre for Population Biology (April 2002)

Dept. of Zoology, University of British Columbia (March 2002)
Dept. of Biological Sciences, University of Alberta (March 2002)
Dept. of Ecology and Evolutionary Biology, UC Santa Cruz (January 2002)
Newton Institute, University of Cambridge (Dec. 2001)
SUNY Stonybrook Symposium Honoring James Rohlf (Nov. 2001)
Mathematical Biology Conference at Gulbenkian Institute, Lisbon, Portugal (Keynote speaker) (Oct. 2001)
Workshop on Marine Reserves, Woods Hole Oceanographic Institute, (Aug. 2001)
IEEE Summer School on Biocomplexity and Biological Signal Processing (June 2001) (Three Lectures)
Frontiers in Oceanography Series, Scripps Institute of Oceanography (May 2001)
Texas A & M University (May 2001)
1st Brazilian Symposium on Mathematical and Computational Biology, Rio de Janeiro, Keynote speaker (April 2001)
Claremont Math Colloquium (April 2001)
McGill University (Sept. 2000)
Princeton University (April 2000)
Workshop on Mathematical Biology, Oberwolfach, Germany (Oct. 1999)
University of Tennessee, (October 1999)
Centre for Population Biology, Silwood Park, Imperial College, Ascot, England (July 1999)
Centre for Mathematical Biology, Oxford University, Oxford, England (July 1999)
Society for Mathematical Biology/ESTMB Joint Meeting (July 1999)
NATO Summer School on Mathematical Problems Arising from Biology, Toronto (June 1999)
University of Turku, Turku, Finland (April 1999)
Workshop on Metapopulations, Tvarminne, Finland (April 1999)
Mathematics Department, Pomona College, Claremont, California (April 1999)
Western Society of Naturalists, San Diego (December 1998)
INTELCOL (International Ecology Congress) Florence, Italy (July 1998)
Workshop on Mathematical Population Biology, Gothenberg, Sweden (May 1998)
University of Arizona, Dept. of Ecology and Evolutionary Biology (April, 1998)

## Teaching Interests

Population Ecology, Mathematical Methods in Population Biology, Theoretical

Ecology

**Graduate students trained:**

Previous: Richard Gomulkiewicz, Kevin Higgins, Aaron Klebanoff, Chris Ray, Perry deValpine, Brad Crane, Katya Prince, Arthur Amezcua, James Umbanhowar, David Brown, Charlotte Lee, Chris Dugaw, Caz Taylor, Roy Wright, Matt Holland, Eli Goldwyn, Julie Blackwood, Alex Perkins, Carl Boettiger, Yun Tao

Current: Noam Ross

**Postdoctoral scholars trained:**

Previous: Duncan Callaway, Kathleen Crowe, Kim Cuddington, Gordon Fox, Sergey Gavrilets, Wesley Godoy, Jessica Green, Richard Hall, A. Noble Hendrix, M. Forrest Hill, Matt Holland, Carole Hom, Gary Huxel, Aaron King, John Lambrinos, Urmila Malvadkar, Kevin McCann, Pablo Rosso, Maria Sanchez, Chris Wilmers, Lee Worden, Brett Melbourne, Derin Wysham, Julie Kellner, Danielle Lyles, Steve Teo , Paul Williams

Current: Adam Lampert, Andrew Noble, Gabriel Gellner

**Grant Support**

Predator-Prey Systems and Evolution of Ecological Parameters, National Science Foundation (DEB-8002593) 6/1/80-11/30/83 $46,406

NSF-CBMS Regional Conference on Mathematical Ecology, National Science Foundation, MCS-8403557 3/85 $19,711

New Approaches to Multilocus Population Genetics, National Institutes of Health, 1 R01 GM32130 7/1/83 - 6/30/95 (from $30,000 to $80,000 per year)

Development of Paradigms for the Dynamics of Structured Populations, Department of Energy, DE-FG 7/89 - 6/93, $150,000

Physical Forcing of Spatially Distributed, Meroplanktonic Organisms, National Science Foundation, (co-pi, with L.W.Botsford, J.Quinn, M. Patterson and T. Powell) OCE-90-16721, 10/90-10/93 $200,000

Acquisition of Computer Graphics Instrumentation for Computational Biology, National Science Foundation (with Joel Keizer and Angela Cheer, co-pi), 10/92-9/94 $200,000

Effects of Climatic Changes on Ecological Communities in Fragmented Habitat, NIGEC, 7/1/95-6/30/99 $186,000

Hybrid Zones: Changing the Assumptions Underlying the Theories, National Science Foundation, 10/15/96-9/30/00 $114,000

Research Training Grant in Nonlinear Dynamics in Biology, National Science Foundation (PI, with Joel Keizer, Angela Cheer, and Maureen Stanton), 1/1/97-12/31/02 $1,861,000

Larval Dispersal and Marine Metapopulation Dynamics, National Science Foundation (co-pi, with Louis Botsford), 10/15/97-10/14/00 $300,000

Spatial Dynamics of an Outbreaking Insect Population, National Science Foundation (co-pi, with Susan Harrison) 7/1/96-6/30/00 $200,000

Integrating biological control in the integrated pest management program for *Spartina alterniflora* in Willapa Bay, National Sea Grant (with Miranda Wecker and Donald Strong) 10/1/99 – 9/30/01 $120,000

Quantitative Environmental Biology Workshop, Fall 2000. National Science Foundation (PI, with Peter Arzberger and Shandelle Henson) 8/1/00-12/31/02 $38,881

CoOP NE Pacific: The Role of Wind Driven Transport in Shelf Productivity, National Science Foundation (with Louis Botsford for Davis part) 1/1/00-12/31/04 $946,349

GLOBEC: Physical Influences on California Current Salmon, National Science Foundation (co-pi, with Louis Botsford) 10/1/00-9/30/05 $597,000

Biocomplexity: Dynamics of an Invasive Non-Native Species and its Biological, Physical, and Human Impacts: *Spartina alterniflora* on the Pacific Coast. National Science Foundation (PI, with David F. Layton, Donald R. Strong, Edwin D. Grosholz, Susan L. Ustin) 10/15/00-10/14/05 $3,799,621

Subcontract for Biocomplexity: Coupled natural and human dynamics in coral reef ecosystems: The effect of marine reserve network design and implementation on fisheries, biodiversity, and humans. National Science Foundation (Main award to American Museum of Natural History) 1/1/02-12/31/06 $199,998 (subcontract amount)

QEIB. Using Phase Dynamics and a Model Experimental System to Understand the Effects of Extrinsic Variability on Predator and Prey Metapopulations. National Science Foundation (co-pi, with Marcel Holyoak) 7/1/02 - 6/30/05 $274,708

QEIB. Theory and Experimentation with a Powerful Trophic Cascade: Nematodes, Rootfeeders, and Bush Lupine. National Science Foundation (co-pi, with Don Strong) 9/1/03-8/31/08 $495,000

Collaborative:MSPA-CSE: Analysis and Detection of Transient Dynamics in Ecological Systems. National Science Foundation (PI, with Anthony Ives, Univ. of Wisconsin; Kevin Gross; NC State Univ.) 9/15/04-9/14/07 $450,000 (Total award to all 3 campuses)

Subcontract for EPA STAR Grant: Connectivity in Marine Seascapes: Predicting ecological and socioeconomic costs of climate change in coral reef ecosystems 3/1/2005-2/29/2008. EPA (Main Award to RFF) $86,607.64 (subcontract amount)

QEIB: Stochastic Spatial Spread: Models and Experiments. National Science Foundation (PI, with Brett Melbourne) 07/01/05 – 06/30/08 $291,893

U.S.-GLOBEC NEP Phase IIIb-CGOA: Environmental influences on growth and survival of Southeast Alaska coho salmon in contrast with other Northeast Pacific regions (co-pi, with L W Botsford) 04/01/06-03/31/09 $290,424

Biological Dynamics at Intermediate Time Scales. National Science Foundation 9/1/08-8/30/11 (PI) $460,192

Collaborative Research: Comparative Analysis of Salmon and Cod Population Responses. National Science Foundation 9/1/08-8/30/11 (co-PI, with Louis Botsford) $267,466

Collaborative Research: Range Limits and Their Response to Environmental Change: Experiments and Stochastic Models. National Science Foundation 8/1/09-7/30/14 (PI, with Brett Melbourne, Univ. of Colorado) $304,691

CNH: Removal and Restoration: Social, Economic and Ecological Dynamics of Invasive Spartina in San Francisco Bay. National Science Foundation 10/1/10 – 9/30/14 (PI, with Carmia Feldman, Ted Grosholz, Mark Lubell, Jim Sanchirico) $1,350,000

Dynamics at Intermediate Time Scales and Management of Ecological Populations. Army Research Office 9/1/13-8/31/16 $359,000

INSPIRE Track 1: From population ecology to physics and back: understanding spatiotemporal synchrony using Ising class phase transitions in noisy dissipative models. National Science Foundation 10/1/13-9/30/16 $600,000
